ECHO Session Recap

A National Learning & Action Network

What are some tools you can use to identify priority populations?

- a. Identify people with rising risk for increased healthcare utilization or length of stay.
- b. Identify people with poor clinical outcomes.
- c. Use a roster referral of members screened for HRSNs.
- d. Use Area Deprivation Index (ADI) Data to identify people with needs.
- e. All of the above.

A National Learning & Action Network Community-Driven, Multi-Payer Health Equity Solutions: An ECHO Collaborative

True or False?

Health Plans are required to have at least one SDOH measure (for example, food, transportation or housing).

A National Learning & Action Network

2023 HEDIS® SDOH Measure (Required for Health Plans)

- The percentage of [Health Plan] members who were screened, <u>using</u> <u>prespecified instruments</u>, at least once during the measurement period for unmet food, housing and transportation needs, <u>and</u> received a corresponding intervention if they screened positive.
- Percentage of members that screen positive and receive a corresponding intervention within 1 month.
- Required Domains
 - Food
 - Housing
 - Transportation

A National Learning & Action Network

The Joint Commission Health Care Disparities Requirements specifies that organizations must:

- a. Designate an individual to lead activities to reduce health care disparities
- b. Assess for health-related social needs
- c. Provide information about community resources and support services
- d. Develop a written action plan to address at least one of the health care disparities prevalent in the population
- e. All of the above

A National Learning & Action Network

Joint Commission Health Care Disparities Requirements

- Effective January 1, 2023:
- Requirements:
- 1. Organization **must designate an individual to lead activities** to reduce health care disparities for the organization.
- 2. Organization must assess for health-related social needs and provide information about community resources and support services
- 3. Organization must develop a written action plan to address at least one of the health care disparities prevalent in the population.

HRSN Impact on Disease Tx - Diabetes

Diagnosis	Food Insecurity	Housing Insecurity	Utilities interruption	Transportation
Diabetes	Food Insecurity has a negative impact on the ability to adhere to recommended dietary changes. Non-adherence to recommended dietary modifications will impair the ability to achieve HgbA1C goal < 7	Management of diabetes requires storage of diabetes supplies to monitor blood glucose, insulin storage, and insulin supply storage. Housing insecurity limits the ability of the patient to store insulin, store insulin supplies, and monitor blood glucose levels. Housing insecurity directly impacts the ability to manage diabetes which reduces the ability to achieve diabetes management goal HgbA1C < 7.	Insulin to manage diabetes must be stored in a regulated temperature environment. Intermittent access to power and other utilities jeopardizes the access to insulin. Failure to have consistent utilities jeopardizes the management of diabetes.	Medication adherence is critically important to the management of diabetes. A lack of access to reliable transportation will impair the ability of the patient to adhere to the prescribed medication regimen related to access to reliable transportation to a local pharmacy to fill prescriptions. Failure to reliably fill prescriptions will lead to exacerbation of disease.

A National Learning & Action Network

HRSN Impact on Disease Tx – Heart Failure

Diagnosis	Food Insecurity	Housing Insecurity	Utilities interruption	Transportation
Heart Failure	Food insecurity has a negative impact on the ability to manage heart failure. Condition is highly sensitive to salt intake and fat. Foods with low- nutritional value and high in salt will lead to increased exacerbation of disease. Patient requires interventions to address food insecurity to reduce the incidence of exacerbations of heart failure related to non- adherence with recommended diet.	Housing insecurity will lead to increased exacerbation of heart failure due to the potential exposure to temperature extremes of hot or cold during periods when housing is lost. It is imperative to stabilize housing to prevent exposure to temperature extremes which will lead to exacerbation of heart failure.	Heart Failure is sensitive to temperature extremes (heat and cold). Failure to have consistent access to utilities will expose the patient to temperature extremes. Exposure to temperature extremes will lead to worsening exacerbation of heart failure.	Medication adherence is critically important to the management of heart failure. A lack of access to reliable transportation will impair the ability of the patient to adhere to the prescribed medication regimen related to access to reliable transportation to a local pharmacy to fill prescriptions. Failure to reliably fill prescriptions will lead to exacerbation of disease.

A National Learning & Action Network

HRSN Impact on Disease Tx - COPD

Diagnosis	Food Insecurity	Housing Insecurity	Utilities interruption	Transportation
COPD	Management of COPD requires the patient to adhere to a balanced diet. Persons with COPD should each small balanced meals on a regular schedule. Failure to adhere to a balanced diet could lead to exacerbations of COPD.	COPD is sensitive to temperature extremes (hot or cold). Persons with COPD must be maintained in a consistent temperature to prevent exacerbations of COPD. Housing insecurity places the person at risk of exposure to temperature extremes. It is imperative to prevent exposure to temperature extremes by stabilizing housing.	COPD is sensitive to temperature extremes (hot or cold). Persons with COPD must be maintained in a consistent temperature to prevent exacerbations of COPD. Utility interruptions places the person at risk of exposure to temperature extremes. It is imperative to prevent exposure to temperature extremes by stabilizing utilities.	Medication adherence is critically important to the management of COPD. A lack of access to reliable transportation will impair the ability of the patient to adhere to the prescribed medication regimen related to access to reliable transportation to a local pharmacy to fill prescriptions. Failure to reliably fill prescriptions will lead to exacerbation of disease.

Documentation Sample Essentials - Heading

- Date: February 5, 2024
- Start time: 10:15am
- Stop time: 12:22pm
- Total Time this Encounter: 2 hours and 7 minutes
- HRSN Addressed: Food Insecurity

A National Learning

& Action Network

Community-Driven, Multi-Payer Health Equity Solutions: An ECHO Collaborative

Documentation Essentials – In Home Assessment

- In Home Assessment findings
 - Patient has food insecurity, and she reports that she often has only one meal per day. The meal usually consists of high carbohydrate noodles with a salt seasoning packet. She only receives \$50 per month in food stamps. Conducted an interview to determine current access to food sources, SNAP benefits, and assistance in the home with supports. In-home assessment findings reveal the following supports:
 - Consumer is legally blind related to complications of diabetes
 - Lives alone and has difficulty completing ADLs without assistance
 - Receives limited personal care aide services for 8 hours per week
 - Receives \$50 in SNAP benefits per month
 - Patient reports that she does not have money to purchase food and has limited ability to purchase and prepare food due to blindness.

A National Learning & Action Network

Documentation Essentials – CHI Interventions

After completing the assessment, I informed the patient that we would pursue the following options to secure consistent food supports:

- Obtain support from a local emergency food bank distribution site
- Identify food bank and other resources for food that comply with dietary restrictions for diabetes
- Apply for an increase in SNAP benefits
- Submit an application to get on the waiting list for home-delivered meals that are medically tailored for diabetes
- Provide assistance with obtaining instructions on preparing diet-appropriate meals that can be prepared by persons with vision impairment
- Assist with completing an Medicaid waiver application for expanded personal care aide services to assist with meal preparation
- Reviewed audio resources from the American Foundation for the Blind diabetes program.
 - A Guide to Living with Diabetes and Vision Loss

Beacon Community Connection

STRATEGY DEVELOPMENT AND IMPLEMENTATION TO RESOLVE SOCIAL DETERMINANTS OF HEALTH

Presentation to Health Equity Learning Collaborative May 16, 2024

Holly Howat., Ph.D, Founder and Executive Director Beacon Community Connections

Cian Robinson, M.S., Founder and President Robinson Ventures

STRATEGY DEVELOPMENT AND IMPLEMENTATION

PLAN

DO

CHECK

ACT

Recognize an opportunity and plan for change Carry out a small-scale study of the change Review and analyze the results of the change Take action based on what you learned to refine or expand

PLAN

ASSESSMENT	Understand the current context of healthcare and Social care in your community
VISION	Articulate your realistic goals and objectives to connect patients to social care supports and services
STRATEGY	Develop a written plan of action to implement immediately and share with stakeholders including patients
PRINCIPLES	Incorporate principles of health equity and social care into all planning aspects

Strategic Plan

Impact	Operational Priority	Strategic Objectives
Focus on Social Care as a Core Competency	Quality Enhancement	Reach new populations by analyzing data to identify unmet needs and opportunities.
Continue Thoughtful Growth Through Community Engagement	Community Engagement	Expand engagement and positive presence in the communities that are currently served.
Develop and Sustain a Solid Operational Foundation	Financial Sustainability	Diversify payment models with healthcare using data-driven insights.

Business Plan

A National Learning & Action Network

Community-Driven, Multi-Payer Health Equity Solutions: *An ECHO Collaborative*

A National Learning & Action Network

Next Steps

A National Learning & Action Network

Reminder: Change in Direction

- Starting in June from 2:00 to 3:30 EST
 - Emerging Community-Clinical Teams 1st Thursday JUNE 6
 - Advanced Community Clinical Teams 3rd Thursday JUNE 20

A National Learning & Action Network

Deciding Which ECHO Group to Join

Example ECHO Session Topics

Emerging Community-Clinical Team Topics	Advanced Community-Clinical Teams Topics	
✓ Landscape analysis	✓ TeamSTEPPS framework	
✓ Partnership development	✓ Theory of Change: Alternative Payment Models (APMs)	
 Determining return on investment 	 Using APMs to advance health equity 	
✓ Value Proposition	 Sustainability through multi-payer alignment 	
✓ Contracting 101	 Payment incentives to reduce health disparities 	
✓ Billing and Coding 101	 Expanding target populations 	
✓ IT systems	 Blending and braiding services 	
✓ Quality	✓ IT Systems	
	✓ Quality	

If you have partnerships in place and already have one or more contracts with health systems or plans, join the Advanced Community-Clinical Team Call.
